NOTICE

Eastern States Parkway Road Improvements

The Borough of Somerville has contracted with DeSantis Construction, Inc. to perform improvements for the roadway project Eastern States Parkway including but not limited to concrete, pavement milling, base pavement repairs, resurfacing the pavement, storm sewer.

The purpose of this correspondence is to advise you that work will be commencing on or about September 28, 2022 and weather permitting.

During construction there may be periods of time where slight delays are experienced. As with all construction projects, we urge residents to proceed with caution in areas of construction and to follow all directions of the traffic control directors. The Borough and its contractor will make every effort to keep these interruptions to a minimum and complete this project as quickly as possible.

Construction will begin with drainage pipe and storm water catch basin reconstruction followed by miscellaneous curb and driveway apron construction. Only certain sections of curb will be replaced. Also, only certain driveway aprons will need to be reconstructed. Our inspector will be marking out which ones are affected. During this phase of work the residents will be able to park along the curb as usual with the exception of the area of the construction zone where current work is being conducted. We will be notifying you at a later time as to what to expect during the paving phase of the project. Garbage and recycling schedules will remain in effect.

If you have questions or concerns please contact Rodney Hadley, Somerville Director of Public Works at 908-704-7195.

Thank you for your cooperation and patience.
